Process mining for auditors

Learn the basics of process mining in two 2-hour sessions with hands-on exercises. Discover how to analyze real processes from data, handle complexity, fix data issues, and gain insights—focused on topics relevant to auditors.

Participants

- Internal Auditors
- Compliance officers and internal control functions
- Risk managers

Prérequis

Fluency in English - English language training in a virtual classroom

Objectifs pédagogiques

- **Understand** the most important application possibilities of process mining
- **Get familiar** with the basics of process mining techniques
- **Practice** the usage of process mining techniques

Moyens pédagogiques

Folders containing Powerpoint slides, technical documents, exercises, documentation, bibliography
Presentation methods : Paperboard – Light-projector

Modalités d'évaluation des acquis

Progress in learning and assessment of participants' achievements by the trainer throughout the training course: discussion time, practical work, training exercises, quizzes. An online satisfaction survey is conducted for each trainee. This assessment is supplemented by the trainer's evaluation at the end of each session.

Intervenant

Training designed and run by Anne ROZINAT.
